

I | INVIGORATE

Revitalize your staff and your office with today's technology.

Digital record keeping, electronic charting, computerized medical forms, and advanced imaging are now the norm in dental offices.

I | INTEGRATE

Digital images, electronic charting, case presentation, medical questionnaires - complete it all with ease using tools like multi-touch tablets.

Get the most out of ClearDent with our fully integrated and automatic patient contact system, ACM - emails, texts, and calls patients with zero effort.

I | INNOVATE

With ClearDent, everything is at your fingertips. Front desk info, patient charts, digital images, documents, reporting and every aspect of your office technology. Our supplier independence also allows the flexibility to make the best choices for your practice.

You know your practice, you know what you need. ClearDent gives you the power to bring it together.
