

I N T E G R

Now you CAN have it all.

Complete dental software designed for YOU.

Efficient. Effortless. Exponential possibilities.

CLEAR DENT

COLLABORATE

Enhance your client care AND your bottom line.

Go well beyond basic billing and scheduling. Think BIGGER about your business. ClearDent works with you to create efficiencies and opportunities you've only dreamed of. We've taken the time to consult and collaborate with dentists and their staff for more than a decade. We know the demands of a 21st century practice and how to optimize every operational aspect.

UPDATE

Conversions are possible!

Never believe your data is locked in, or your digital images and electronic charts are inaccessible. You don't have to be stuck with a system you may have already purchased yet doesn't meet your needs. ClearDent has vast experience converting all major dental software systems. Our in-house data specialists can convert proprietary, corrupted systems, and custom conversions.

*Update with ClearDent and you'll
see that paperless is profitable.*

COMMUNIC

Manage appointments.

Increase productivity. Satisfy patients.

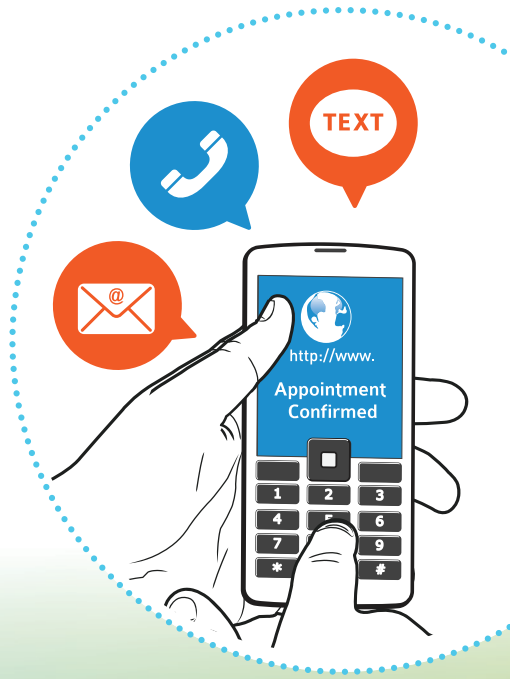

ClearDent makes appointment booking for the day, week or year, easy and efficient. Drag and drop to rebook appointments, keep track of cancellations and outstanding treatments and access patient info with just a few clicks. Better yet, our exclusive ClearConnect feature allows you to program customized emails, texts, and calls to patients with zero effort. Never lose another appointment again.

Patients

- Automate! Patients can be reached (and respond) at any time by phone, email or text for confirmations, recalls, requests or reminders – conveniently and instantly.

People

- Less time chasing appointments means more time for your staff to concentrate on more important things like patient care. ClearConnect automatically sends appointment reminders to patients then tracks and documents their correspondence. The work is done for you.

NAVIGATE

Organize your patient information Better than ever.

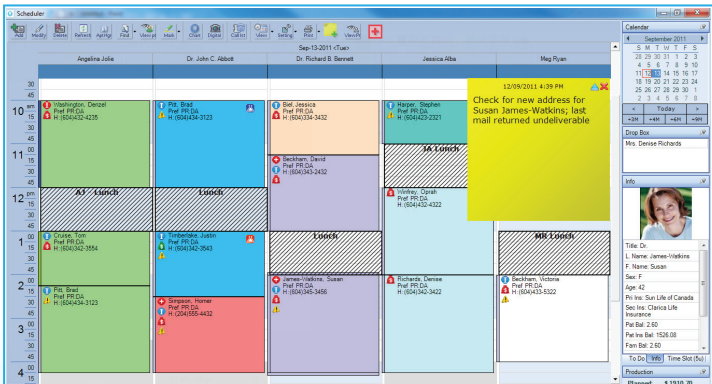

ClearDent ensures that all patient information is seamlessly organized, easy to read and comprehensive with profiles incorporating every relevant detail from images, correspondence and medical and oral health, to insurance, payment and family data – all accessible with just a few clicks.

People

- Never again will your staff need to rummage through hundreds of files searching for lost or misplaced charts. ClearDent saves time by easily creating, scanning and storing documents electronically.

Practice

- Quite simply, a better organized, efficient and easily navigated office is a more professional and profitable office.

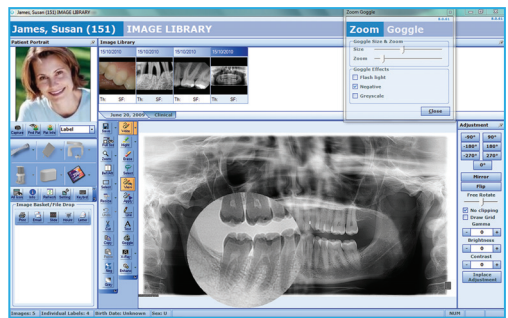

INNOVATE

Digital imaging and charting Taken to the NEXT level.

ClearDent is the most complete, easy-to-use and secure electronic imaging and charting system available to dental practitioners – bar none. Digital images are fully optimized for quality and accurate treatment diagnosis, and allow you the freedom to magnify, contrast, sharpen and enhance images to correct less than optimal takes.

ClearDent imaging and charting modules are fully integrated and compatible with intraoral cameras, scanners and digital x-rays, so you have the freedom to choose from the best products, equipment and support for your practice.

People

- ClearDent charting reduces errors and simplifies office communication by generating procedure codes automatically with proper fee and insurance splits.
- Info is entered only once, eliminating redundancies.
- Interactive voice recognition allows for periodontal exams to be done error-free and without the need for an assistant.

Practice

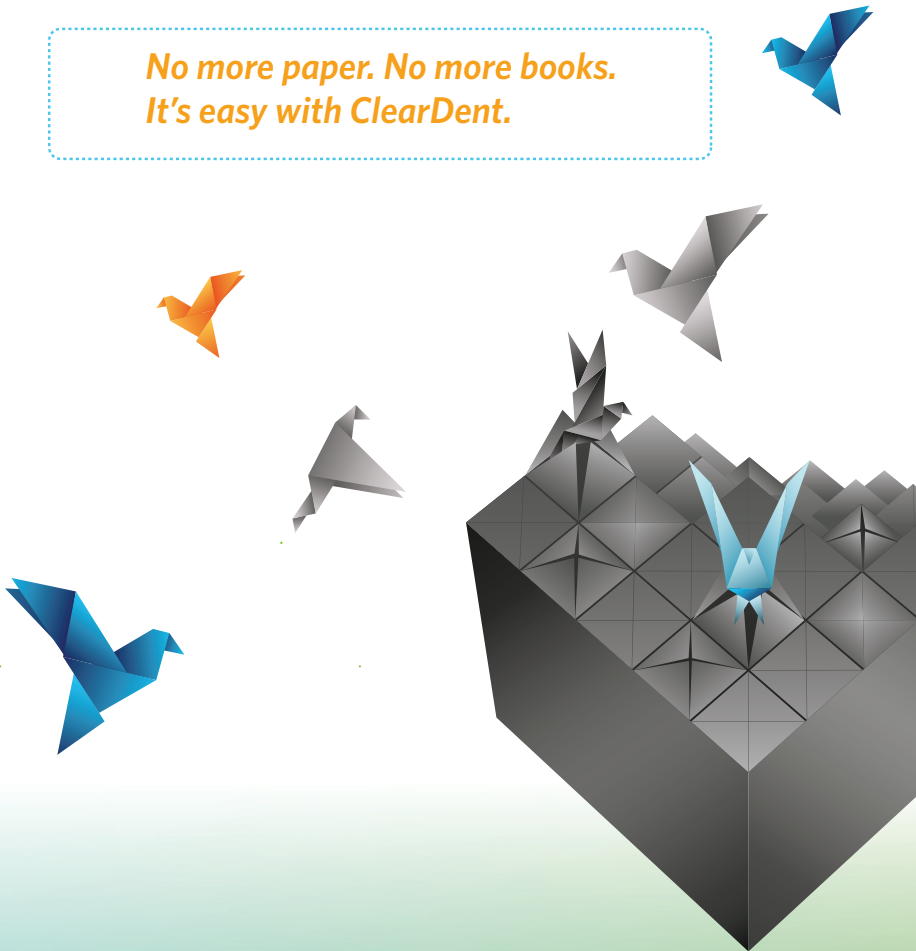

- Accurate case documentation provides peace of mind.
- Comprehensive patient charts from soft tissue to restorative and periodontal – everything you used to do on paper can now be done electronically, easily and securely through ClearDent.

LIBERATE

Watch your practice take flight.

With just one place to go for all your service and support needs, ClearDent liberates you from any worry and allows you to focus on your practice. We back up our software with the very best and most responsive support – 90% of calls are answered by a live representative. That’s why over 97% of ClearDent users actively recommend our system to their peers.

*No more paper. No more books.
It's easy with ClearDent.*
