Join Brandi Eckstein, your local ClearDent Certified Trainer, for an afternoon focused on:

- ✓ **Optimized Treatment Planning** - take advantage of the Status, Sequence, Unit, and Interval columns so you are always on top of all treatment plans. Find and follow up on outstanding plans using the treatment plan manager.
- ✓ **Voice Activated Perio Charting** - see how you can take advantage of the voice recognition technology in ClearDent to do hands free perio charting.
- ✓ **Recalls Revisited & Automated** - learn the full inner workings of ClearDent's Recall so you can take advantage of the automation it provides you.
- ✓ **Track your production** - when billing for treatments such as Crowns, Dentures, and other "In Progress" procedures; learn how to properly post them as incomplete, and see them in your production reports today.
- ✓ **NEW! Lab Tracking** - learn how to *create, print, track* and *manage* your lab cases all within ClearDent.
- ✓ **Document Management & Patient Medical Forms Made Easy** - see how ClearDent's Letter Manager and KIOSK mode help you eliminate paper for doing medical history and retain compliance with CDSBC record keeping guidelines.
- ✓ **Advanced Digital Imaging** - use auto-capture, use of mounts, presentation, and incorporating digital images in to letters, emails, and other documents.

Attendees will receive 4 CE credits upon completion. You will learn in-depth knowledge of the ClearDent software. You will also receive a free one-hour online session with one of our trainers to discuss individually or as a group on how to apply the knowledge in your specific practice. The course is designed for ClearDent users that have a minimum 6 months of experience.
